TI-DRAIN

Modular floor drain with sealing system

Perfect system for achieving a reliable seal directly under the tiles! The TI-DRAIN point drainage system is a modular 3-level system - according to the demands of the most diverse installation situations. All module levels are always intercompatible.

DURAL

1. Grating module

As a set, the three TI-DRAIN grates Square, Linear and Sun contain all connectors required to connect to the next module: one stainless steel grate frame, one plastic frame with a threaded adapter for connection to sealing module 2 or to the sealing flange ring.

The grates are available in sizes 10 x 10 cm and 15 x 15 cm

Square

Linear

Sun

2. Sealing module

The WP variant is used for composite sealing with mat systems, e.g. DURABASE WP, WP++ using a coating sealant and consists of a PP film as the sealing connection with an integrated connection unit for connection with module 1 and module 3.

The mesh variant is used for composite sealing using waterproofing membranes and consists of a mesh material with an integrated connection unit for connection with module 1 and module 3.

Size: 350 x 350 mm

Size: 350 x 350 mm

3. Drain module

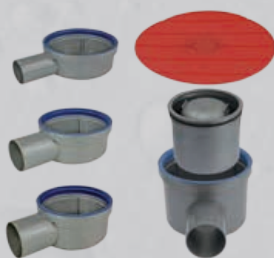

Choose from five different drain units. Four horizontal drains with different connection cross-sections from DN 40 to DN 70 and water trap heights.

Drainage incl. siphon and protective cover

Vertical drains:

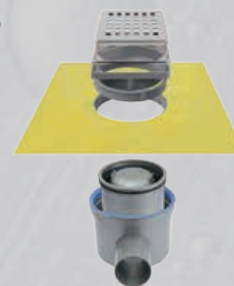

The vertical drain is equipped with a DN 50 connection cross-section, a trap a practical structural protective cover.

Drainage incl. siphon and protective cover

TI-DRAIN Complete set WP

Sealing collar with yellow WP sealing film incl. Drainage and grate with accessories 10 x 10 / 15 x 15 cm
Horizontal drain outlet DN 50
Siphon with 3.0 cm water seal head

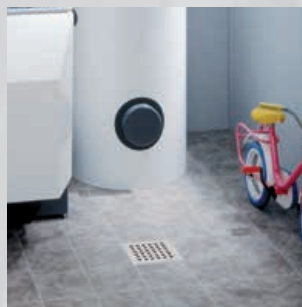

TI-DRAIN Complete set mesh

Sealing collar with mesh for construction chemistry incl. Drainage and grate with accessories.
Horizontal drain outlet DN 50
Siphon with 3.0 cm water seal head
